

# IMEX 88G GREEN BEAM LASER

**TOOL:** IMEX 88G Green Beam Laser  
**REVIEWER:** Matt Page

Unleash the green hulk! The Imex 88G Green Beam Laser is not here to muck around. Packed with features, it will ensure accurate results every time.

So, Green Beam Laser, "I'm landscaping my backyard and I want my entire lawn level the same as my deck, and my retaining walls around the lawn a perfect 600mm above the grass. Oh, and whilst you're here, can you help me set out the fall in my new slab to slope into my drains?" And with a quick mounting on the tripod, the Green Beam was at home.

Set-up time was fast and accurate as the self-leveller did the rest, ready for work. Not that I needed a 500m dia range but I thought it would be fun to walk down the street and test this one out with the standard detector that comes in the box. Very cool! With accuracy of +/- 1.5mm over 30m, I'm sure my backyard is going to be level.

The Green Beam is packed with internal features but it's also the outer features that make this an awesome tool. Let's start with the highly visible, heavy-duty and robust water and dust-proof case with a fully enclosed laser diode to keep your laser spinning for years to come. A sensor based of levelling system utilising level sensor and stepping motor gives excellent levelling ability and accuracy. Also, the Imex 88G has simplified design elements and robust components which will reduce calibration service requirements. Did I mention the cool green beam?

Thanks Imex 88G Green Beam Laser – my backyard landscaping is set to go with hours saved and a better result.

ARTICLE CRITERIA	BUILDING HAND TOOLS Operator Comments Report	STAR RATING
BALANCE	Laser self-levels.	★★★★☆
DESIGN	Fantastic design and features.	★★★★★
ERGONOMICS	Felt good in hands, looked even better on tripod.	★★★★☆
SPEEDS	Makes jobs easy and saves loads of time.	★★★★★
BATTERY RUN TIME	Good but also comes with 240v adapter.	★★★★☆
TORQUE	N/A	
RECHARGE TIME	Fast and you can continue to work with the 240v if you don't have a spare set of batteries.	★★★★★
VIBRATION		
EASE OF OPERATION	With its advanced features it will require a bit of reading to get the most out of your laser, but everyday functions are a breeze!	★★★★☆
PRICE	Price on request.	
ACCESSORIES	Set inclusions laser unit, detector and bracket, remote, charger and hard carry case.	★★★★☆
OVERALL LIKES	Speed, accuracy, green laser, waterproof dust-proof design, bright green design and safe carry case.	
OVERALL DISLIKES	Could have one lower volume setting on the receiver.	
OVERALL STAR RATING	Fantastic time-saving tool which takes the effort out of setting up.	★★★★★

ARTICLE CRITERIA	BUILDING HAND TOOLS Operator Comments Report	STAR RATING
BALANCE	Flat bottom, tripod and mounting system.	★★★★★
DESIGN	Excellent design, too many features to list.	★★★★★
ERGONOMICS	Really easy to set up and pack away, strong soft rubber handle.	★★★★★
SPEEDS	N/A	
BATTERY RUN TIME	20 hours, rechargeable battery.	★★★★★
TORQUE	N/A	
RECHARGE TIME	7 hours full-charge.	★★★★★
VIBRATION	No vibration but shock-proof casing.	★★★★★
EASE OF OPERATION	Set up is fast, there are a lot of cool functions but I found it easy to learn how to use it.	★★★★★
PRICE	N/A	
ACCESSORIES	Laser detector included, staff and tripod optional extras.	★★★★★
OVERALL LIKES	Durability, grade slope function, high visibility green beam.	
OVERALL DISLIKES	Nothing to dislike really.	
OVERALL STAR RATING		★★★★★

The Imex 88G Green Beam Laser is definitely one of the higher-end lasers on the market.

I'll start off by mentioning its IP rating of 66 which means it is shock-proof, totally dust-proof and water-proof against temporary flooding of water. When you pick it up you can really feel how solid and strong it is.

With a massive 500m diameter working range with the supplied laser detector, 20 working hours' rechargeable battery, dual manual grade slope setting (which is surprisingly easy to set up), and top and bottom plumb spot beam, the Imex 88G will make life easy and accurate on any jobsite.

I really liked the 360° rotating laser which is fully enclosed, and the remote helps with ease of operation. One of the upgrades from the previous model is a more highly visible green beam which I found to be more than adequate on the sunny day of our test.

I found the Imex 88G to be accurate, heavy-duty, versatile and efficient, and I highly recommend it. **BCM**
